## Pairing iPad Bluetooth keyboard with iPad

Preparation: Pls make sure your iPad has adequate battery and full charge your iPad keyboard prior to proceeding (For first use ,pls charge it with supplied USB cable for at least 3 hours)

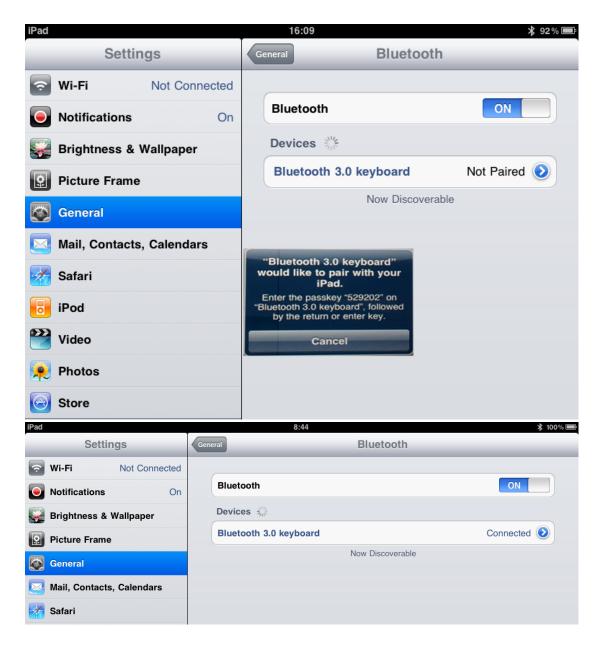

Step 1: Toggle on the Power switch, the Power and Bluetooth Indicators should be lit for approximately 3 seconds. It is now in idle mode. Press the connect button 3-5seconds ,the Bluetooth Indicator should be flashing. It is now in pairing mode.

Remark: The Bluetooth Indicator LED is blue, The charge Indicator LED is red, The Battery low indicator LED is Red.

Step 2: On the iPad, tap setting, within the General tab, select Bluetooth. If Bluetooth is turned off by default, swipe to turn it on. The iPad should now be searching for all Bluetooth devices within range. Wait for Bluetooth Wireless keyboard to appear under devices.

Step 3:Tap on Bluetooth wireless keyboard to connect, it is required to type in the 4-digit code according to the on-screen instruction. Hit enter, it should now be connected.

#### **Notice:**

- 1. When low power, the LED will light up for 1 second and be blinking intermittently.
- 2. When charging, the LED will light up, and be off when full charging.

# Recharge the battery:

Connect the mini Bluetooth Keyboard to your computer's USB port by the power USB cable( you can find the cable in the retail box).

#### **FCC Statement**

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FC C Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- -Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- -Consult the dealer or an experienced radio/TV technician for help.

FCC Caution Any change or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.
